

**FIRST CHOICE**®

**T-PA**

**Foliar Applied  
on Processing Tomatoes**

### FIRST CHOICE T-PA Enhances Performance Of Foliar Applied Nutrients

- Apply FIRST CHOICE T-PA + Potassium Nitrate at full bloom.
- Water Quality affects the availability of foliar applied nutrients.
- Add FIRST CHOICE T-PA at a rate of 16 to 48 ounces depending upon water hardness.
- FIRST CHOICE T-PA reduces the effects of poor quality water on plant nutrition.
